* *The aeration soil on this featured green got soaked overnight. Model FCCTM7 Illustrated*

CLEARs LARGE AREAs FAST

SOIL IS SCOOPED TO ONE BOUNDARY

DUMPS AUTOMATICALY WHEN RAISED

BOUNDARY SCOOPED INTO ONE PILE

- *Available for attachment directly to the Groundsman 8120 CTM or 12180 TM Tractor mounting Turf Aerator for instant collection, or on a 3 point linkage frame as illustrated.*
- *Removes the soil entirely from the surface keeping it in play.*
- *Like shovels, linked platelets follow the contours for clean collection with no smearing even in soaking wet conditions.*
- *Low ground pressure prevents rutting on venerable aerated surfaces.*
- *Drastically reduces the man power, clearing up to 14,000 m³ (15,000 sq yds) Hr*
- *For fine turf and longer grasses ...Greens: Approaches: Fairways: Football pitches.*
- *Simple compact design. Low maintenance: Low cost.*
